Locate & Access Resources

• Go the Nursing Guide (i.e., library guide) http://bit.ly/uhmlib_nursing
Nursing: Articles & Databases

Resources for professionalism and cultural competencies, as well as links to related government agencies.

Databases Relevant to Nursing

Listed here are several databases relevant to nursing and health sciences research. Curious about other databases? Browse the SciTech Reference Department's list of selected databases used for the sciences and technology.

- CINAHL with Full Text
  Includes full text for more than 580 journals back to 1981.
  more...

- PubMed Medline
  Provides free access to citations from MEDLINE and additional life science journals. If the University of Hawaii at Manoa (UHM) Library has a subscription to the full-text site, logged in users will be able to view the full-text. To view the citations with UHM links, select "Abstract" from the "Format" drop-down menu.

  - Alt-HealthWatch
  - Cochrane Library
  - Health and Psychosocial Instruments (HaPI)
    more...

  - Health Source: Nursing/Academic Edition
Mahalo!
